DHS EXPERIENCE

To be determined.

TAJ QUALITY ASSURANCE PROGRAM

Our approach to achieving Quality integrates the following activities to manage and support our PMO's quality actions for a continuous Improvement process:

- **Quality Planning (QP):** Identifying the relevant quality standards and determining how to satisfy them.
- **Quality Assurance (QA):** Evaluating overall project performance through process and work product auditing to provide confidence that the project will satisfy the relevant quality standards established during QP.
- **Quality Control (QC):** Monitoring specific products through testing to ensure they comply with pre-determined requirements and meet the relevant quality standards.
- **Quality Improvement (QI):** Using output indicators to help identify better standards and practices in order to increase the effectiveness and efficiency of our services specific to the DHS requirements.
